

# More than Products...

**Territory Instruments (TI)** is a leading Sales, Service and Calibration business of *Process Measurement Instrumentation* and *Test Equipment* for the Oil & Gas, Resources, Water, Defence, Manufacturing and Medical Health sectors.

Established in Darwin over 25 years ago, and under new management in 2018 we now have an Australia wide footprint, with facilities in Darwin, Melbourne and Toowoomba.

Our products are backed up by a **NATA** accredited Calibration Lab and supported with highly qualified service and repair staff accredited to **ISO17025**. TI is also accredited to **ISO45001** through SAI Global.

TI's experienced and qualified staff includes **12 Engineers** across Electronics, Biomedical, Chemical, Mechanical and Electrical (Instrumentation) fields, with combined experience across water treatment, water analysis, telemetry, process automation, metering, gas detection, moisture and gas analysis.

# CALIBRATION REPAIRS SERVICE

# Products

Representing world class Instrumentation OEM's - TI supplies and services a range of Marine, Aero and MIL spec products - such as switches, sensors, gas detectors, along with Test and Calibration Equipment and control devices such as solenoid, control and emergency Shut off vales..

## Microswitches, Toggle Switches

- MIL Spec Toggle
- Pressure Switch
- Sealed switches
- Limit switches
- Proximity

## Sensors and Control devices

- Pressure
- Motion & Position
- Current
- Speed
- Temperature
- Solenoid Valves

## Gas Detection

- Leak Detection
- Fixed Line of Sight
- Personal
- Confined spaces
- Area monitors

## Navigation

- Air Data Test Set
- Barometers

## Calibrators & Test Equipment

- Process Meters
- Pressure
- Temperature
- Electrical
- Multimeters
